*Jack Nicklaus GOLF TIP*

**SET UP "AT EASE" FOR FREE ARM SWING**

You need to minimize tension in all parts of your body at address, but particularly in your arms. That's impossible unless your shoulders are fully relaxed.

Here's a very simple image, along with a drill, that will produce the desired effect.

When a golfer stands stiffly at attention is given the at-ease order, the first thing that happens is a slumping of the shoulders.

"So" and feel your shoulders following just like the soldier's as you set up to each shot, both in practice and in play.

Let them really relax and you'll feel your arms go limp right along with the slumping, which is just the way they should be made a full, fluid golf swing.
